

VIBES m5 Black-TiN

Materials

Stainless Steel AISI 430, AISI 304, AISI 316, AISI 316L, AISI 2205, AISI 316Ti

Finishes

Non-directional polish

Dimensions

Width: max. 2,000 mm | Length: max. 6,000 mm | Thickness: max. 30 mm

Specifics PVD / TiN-coating

- PVD / TiN-coating can be applied on face- and reverse-side
- Project related customized designs and colours are possible (subject to quantities)
- Own, state-of-the-art coating plant operated by highly experienced team of staff
- LAB-Colour values of each sheet are recorded, thus maximum reproducibility
- Design also possible **on both sides**
- Various basic finishes are possible, also perforated material and other
- Sufficient production capacities guarantee the fastest possible delivery

All finishes will be supplied with a PVC-lasercoating providing protection during further handling and fabrication.

REDEFINING SURFACES

VIBES m5 Black-TiN

Specifics VIBES m5 Finish

- Various effects can be obtained using different polishing media and parameters, such as gloss, depth effect, and roughness
- Vibration finish will provide a non-directional, matt and even surface
- The roughness, the degree of gloss, and the visual impression provide a basis for inspection checks
- Production according to customer specifications possible
- Finish can be applied on face- and reverse-side
- Values such as gloss and roughness of each sheet are recorded, thus maximum reproducibility
- Design also possible **on both sides**
- Various grades are possible
- Sufficient production capacities guarantee the fastest possible delivery
